**FIFTIETH CONGRESS.**  
WASHINGTON (D. C.), Aug. 31.—[By the

Associated Press. *Senate*.—The House joint resolution to extend until September 15th the joint resolution of July 31st, to provide temporarily for the expenses of the German-Americans in Canada and Great Britain.

The resolution offered yesterday by Mr. Cullom concerning the transit in bond without payment of duty, of goods from Canada, contrary to law, was considered and after a short debate went over.

Mr. Vest criticized some of the statements made yesterday by Mr. Cullom, particularly as to the violation of the Civil Service Law form in the Chicago postoffice. The statement was that Postmaster Judd allowed postoffice employees to be taxed for Democratic campaign expenses by Mr.

Escher, Judd's law partner. It Judd, said Mr. Vesst, had thus, through his law partner, emulated the example which the Republican party had set for so many years. "I have been out of office and in office, the condemnation of every honest man," was a counterpoise to that charge, Mr. Vesst said to the Clerk's desk and had read several letters from Mr. Cullom to Mr. Dudley, when the latter was Commissioner of Penitentiaries, asking leave of absence, with the promise of a pension examiner, to make political speeches in Illinois.

Mr. Cullom admitted having written such letters, but he based his action on the ground that Government employees were entitled to 30 days' leave with pay.

Mr. Hale pointed Mr. Vest to a "mother-in-law" instance" of violation of the civil service reform laws, and sent the Clerk to the door and had read a "mother-in-law" dispatch in the New York Herald, stating that John M. Brown, who is in charge of the document room of the Democratic National Committee in New York, is an official of the Interior Department, with a salary of \$1500. Mr. Hale recommended Mr. Vest to make pilgrimage to the Interior Department, and have the Secretary lay his strong hand on Trainor, and either bring him home or remove him.

Mr. Hoar: Or promote him.

The Senate resumed consideration of the Fortification bill, and after one amendment had been rejected, the yeas and nays were taken on matters of disagreement, was

ordered, and Senators Daves, Plumb and Gorman were appointed conferees on the proposition.

Mr. Stewart asked unanimous consent that the bill for the admission as a State of Washington Territory be taken up on Monday at 2 o'clock, and continued until deferred.

Mr. Riddleberger objected.

Mr. Stewart gave notice that as the bill was unfinished business," he would, after 2 o'clock on Monday, insist upon its consideration.

The House joint resolution to authorize the Secretary of the Interior to cede certain lands in the State of Kansas for the benefit of the Indians, and mechanics and agricultural arts was passed. Adjourned.

House.—The House on assembling proceeded to the consideration of the conference report on the bill for the admission of

After some opposition to the report by Mr. Cobi of Alabama, on account of its appropriation of \$40,000 to pay certain claims of the Miami and Peoria Indians, the report was agreed to.

The House then proceeded to consider amendments upon which an agreement had not been reached by the conference. The remainder of the day was devoted to a discussion of the amendment relative to the purchase of the land of the Choctaw Indians, which the extravagance of the scheme to which Congress had committed itself was considered and fully commented upon. The House insisted on its disagreement to the Senate amendments.

Pending action on other amendments of which no agreement had been reached, the

Pennington called up the bill granting an increase of \$350 per annum to the widow of the late Gen. Philip H. Sheridan. The bill passed the House by a vote of 241 to 154. Pennington withdrew the bill, and it will be brought to retain its place on the calendar. Twenty-seven private pension bills were passed, and in 1899 the House adjourned.

waid, who arrived in St. Louis April, 1888. The others are for the importation of 33 journeymen sailors who arrived here July 21, 1888. Smidt denies that he violated the law, but admits that he advanced passage money to men who came over because they had no friends and needed workmen.

**Gold in Dakota.**

HOWARD (Dak.), Aug. 31.—Great excitement exists among all classes here owing to the finding of gold in the hills lately acquired by the U. S. from the Indians. The workmen were digging for well purpose. Old miners were soon on the spot and pronounced the find very promising from the quality obtained. An assay was made valuing the quality at \$18 per ounce.

**NEW YORK, Aug. 31.**—Ellis Kahn, cigar maker, 61 years old, killed his wife this morning, and inflicted fatal wounds of himself.

Kahn was wealthy, retired from business and 62 years old. His wife was five years older. The bodies of both were cold in death when found.

GEN. LIONEL A. SHELTON, a statesman of experience and an orator of power, speaks at the Wigwam tonight. The simple announcement is sufficient to give him a great audience, which he deserves, for the sake of the cause. The meeting marks the formal opening of the campaign, and Gen. Sheldon's appointment is by direction of the Republican State Central Committee.

## Cotton's Conundrums.

A person named Cotton—J. H. Cotton—has a communication in yesterday's Herald propounding certain queries to Hon. Mr. Williams, founded on the speech which that gentleman delivered in this city last week. Mr. Cotton informs the Herald and an indignant public that he had sent the communication to THE TIMES, but that this journal had "rejected the same without comment." 'Tis true! We plead guilty to the charge, and will explain why Mr. Cotton's inquiring and querulous communication was returned to the hopeless crank from whose disturbed brain it emanated.

As a sample of his half dozen half-witted questions, we take the following:

(2.) Suppose that each of the "several States of the American Union should pass and enforce high protective tariff laws against the other, what would be the effect on the wage-workers of the several States?"

Now, neither THE TIMES nor Mr. Williams has either time or inclination to instruct ambitious fledglings in the rudiments of American politics. If Mr. Cotton will read the Constitution of the United States, a fundamental law of which he appears to be ignorant—he will find that article 1, section 10, provides that:

No State shall, without the consent of Congress, lay any imposts or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws.

The proposition that the States can establish tariff laws, each for itself, is an original and brilliant conception, truly; a conception worthy of a statesman all Cotton, but a good deal less than a yard wide.

Mr. Williams is a gentleman of national reputation; he has served long and honorably in the Nation's councils as a law-maker, and in her diplomatic service abroad. He will always be found ready to furnish a courteous reply to questions addressed to him direct, and in good faith, by men who know what they are talking about; but it is too much to expect him—or any other leading Republican—to expend his time in giving primary instruction to ignoramuses.

If a deluded dunce fires such idiotic questions as the above at the head of the speaker, what shall be said of the journalistic dunce who deliberately puts them into cold type under the flaming head-line of "Cotton Bating"?

## Some Democratic Monopoli.

Our Democratic contemporaries are fond of asserting that the Standard Oil Trust, the Pacific railroads, the Sugar Trust, the Cotton Seed Oil Trust, the Coal Ring, Jay Gould, *id hoc genus omnes*, are "all for Harrison." Let us see. Senator Payne, that eminent Ohio Democrat, is a conspicuous member of the Standard Oil Trust, and his son-in-law, Mr. Whitney, is Mr. Cleveland's Secretary of the Navy. Mr. Havemeyer, the head of the Sugar Trust, was consulted by the Mills committee and the sugar schedule modified to suit him. He is a generous contributor to the Democratic campaign funds. The Cotton Seed Oil Trust is only a branch of the Standard Oil Trust. Of the coal rings, Congressman Scott of Pennsylvania, Mr. Cleveland's lieutenant, is one of the wealthiest and most conspicuous representatives. As to Jay Gould, he has declared himself for Cleveland.

The Democrats will have very hard work to convince the voters that all the monopolists are in the Republican party and all the generous humanitarians among the Democrats.

## A "Reformed" Service.

One of the strongest Administration papers in the country is the Chicago News, but it is also a believer in civil-service reform. Referring to gross abuses in the postoffice at Indianapolis and Chicago under the "reform" Administration the News says:

All the facts, however, that are known to the public have there, too, as here, "been brought before the Administration" time and again, and there, as here, "its studied indifference to violation of law is the insolence of office"—alike insulting to civil-service reformers and to the people.

It may be that President Cleveland does not really care to be re-elected, and that he is taking this course to insure defeat. 'Tis vastly more tenable than the theory that he is tolerating these abuses because he thinks the political services of such men as Jones, Judd and their fellows of like kidney necessary for his fortunes.

Mr. Cleveland may rest assured that for every vote these men can control through making the public service an asylum for their henchmen, he will lose two from the business community whose interests are trifled with, whose property is rifled, and whose affairs are deranged by the criminal irresponsibility and inefficiency of these "offensive partisans" and petty politicians.

## "Free Whisky"

We are compelled once more to ask those very moral Democrats, who are so shocked at the proposal of the Republican platform to take the tax off whisky, in a remote contingency, which is not at all likely to happen, what they think of the declaration of the third

party Prohibitionists in favor of the immediate and unconditional abolition of the internal revenue. Is not this even more immoral? Yet, that cannot be, for are Democratic papers not filled with complimentary notices of the Prohibitionists? And what do these imbecile Democrats think of the practical steps toward free whisky taken in the Mills Bill, which reduces the penalties for illicit distillation, removes small stills from Government supervision and abolishes altogether the taxes now collected of retail dealers?

"Whom the gods wish to destroy they first make mad." Judging by the course of the Democratic press, the gods have decided to annihilate the Democratic party.

The Democrats of Los Angeles are making a sorry effort to infuse new life into their campaign in this city. No wonder. Their speaking-stand is on an unlighted back street, adjoining the jail, and the kind of stuff the speakers deal out to their few hearers throws a cold chill over them, and they seldom return. For genuinely enthusiastic meetings go to any of the Republican club meetings, and there's where you find the ladies, too. Poor old Los Angeles Democracy, it is "on the run."

INTELLIGENT Americans who have recently visited England say that a great change is impending there. The cry is for "fair trade" not free trade. Free-traders are scarce among workmen, manufacturers and all classes, except the old fogies who over forty years ago introduced free-trade measures in Parliament. Is this a fitting time to introduce free trade into America, when those countries which have tried it are one after another throwing it off?

THE New York Herald has been reading the Democrats a good many lessons of late. Regarding the hopes centered by the Democrats in the Prohibition party, the Herald says:

"It is nonsense to expect to elect Cleveland by temperance prohibition votes. When it comes to close quarters these temperance votes cannot be counted on—assuredly not against Harrison, who has and enforces high protective tariff laws against the other, what would be the effect on the wage-workers of the several States?"

CLEVELAND is awfully anxious to divert the attention of American voters from the real issue of the campaign. Anything is fish that comes to his net, for this purpose, and Canadian fish are as good as any other, but the plan won't work. The voters are determined to keep him to the question—protection to American industries, or competition with European and Asiatic labor.

A JOURNAL capable of reaching the "high-water mark of indecency" by the publication of the infamous, the inexpressible vulgar, cowardly, and brutal "Gregory affidavit" in the Baldwin case, should hide its head in shame, and forever keep silence on the subject of decency in its contemporaries. This remark has reference to the Los Angeles Herald.

In a speech at Des Moines, recently, St. John said:

"I will say to the Democrats that they can come over by the hundred thousand, and yet there will be enough of them left to beat the Republicans."

The Republicans had rather lose a good fight than win as selfish renegades, such as St. John is. They will not lose, however, in spite of St. John and his friends.

Ir, as Senator Voorhees admits, the comparatively unobtrusive tariff plank in the Democratic platform of 1880 lost his party Indiana in that year, what can be expected this year, when the President has made the issue between Republican protection and Democratic free trade more direct than it has ever been before?

In 1865, as chairman of the Platform Committee of the Ohio Democratic Convention, Mr. Thurman reported this resolution:

"That this Government was made by white men, and so far as we have the power to preserve it, it shall continue to be a Government of white men."

Colored men will probably make a note of this.

The coming war-ship will have to be a swift steamer. By the naval maneuvers now finished in the Irish Sea, it appears that the average speed of even the best ships was much below the figures given in any authoritative naval work. A Cunard steamer ran by them as though they were anchored.

THERE is a delay in the determination of the boundary line between the United States and Mexico, owing to want of an appropriation. The work should be pushed forward, as it is very necessary, in order to remove the cause of disputes which are constantly arising.

THE third party is unfortunate in its leaders and speakers. They probably cannot help hating the Republicans with an exceeding bitter hatred, but it is scarcely good policy for them to exhibit their feelings so plainly.

ONE article of the amendments to the Constitution of Massachusetts provides that no person shall vote who cannot read and write. A good provision.

## AMUSEMENTS.

AT THE OPERA-HOUSE.—Dr. Anna Potts is still lecturing to good houses at low rates at the opera-house, and one may confidently expect that good may come of such good subjects, if not said in such important subjects, if not said in such important subjects.

The Madison Square Company, which was expected to open next week, will remain another week in San Francisco, and in the meantime the opera-house will have a week of one of those thousand-and-one so-called comedy-dramas, in which a more or less agile young woman sings, dances and plays the banjo, the young woman in the present case being Hattie Bernard.

ACADEMY OF MUSIC.—A big variety show called Apple's Congress of Novelties, including various well-known specialists, will open on Sunday night at the Academy of Music.

PIANO RECITAL.—Prof. William Plutti of South Ontario will give one of his classic recitals tomorrow at Bartlett's Music Hall, 3:30 p.m. Mr. Plutti will play on a Weber grand, which he has just received from the East.

Blaine Declares the Trusts Are Not a Campaign Issue.

Gen. Harrison Given a Great Reception at Put-in-Bay—Secretary of the Knights of Labor Resigns to Work for Protection—Notes.

By Telegram to The Times.

BOSTON, Aug. 31.—[By the Associated Press.] Gen. Benjamin F. Butler this evening addressed a large audience in Tremont Temple on the tariff and fisheries questions. Theoretically, he said, free trade between all nations, as between men, is correct in principle; that is, if all nations in all things were exactly on the same footing; but such conditions of equality can not exist among nations, and, therefore, all theories upon the question of free trade become useless. Said Gen. Butler: "I cite the President on my side as against free trade, but I must confess at the same time that the President seems to get as near being a free-trader as he can. I believe if he had known, as I know, how much a protective tariff has done for American workmen, his tariff measure would never have been passed. It is not his fault, but the laboring man's misfortune that he did not know the facts."

The speaker declared it as his opinion that during the late war we owed to the effects of the protective tariff the means which upheld the unity of our people, the consolidation of our Government, the glory of our achievements, and the military power of our country, and added: "Is it not a matter of regret that the tariff has been destroyed of our protective system comes from those who did not defend the life of the country in that war, and a majority of whom mourn the cause which the protective tariff caused to be lost to them?"

Gen. Butler attacked the Mills Bill, and then turned his attention to the fisheries question. Touching upon the various treaties that had been in force between the United States and Great Britain, he said: "I agree with the President that the bill giving him the power of retaliation was a bill worthy of the dignity of the United States Government, and he had vetoed it on that ground, I would have been quiet and inclined to support him. My criticism of the bill is that it contains an error in regard to keeping the vessels and crews of Canadians in the British dominions of North America out of our ports. When we learn that these North American British possessions our vessels are kept out of port, pray why don't you take the vessels and crews and give the President the power and right whenever he finds that a single vessel, however small, is kept out of any British port, to treat the vessel and crew as pirates, and to keep out of the ports of the United States every British vessel, however great, until that wrong shall be righted. Retaliate the wrong done to fishermen by Canadians by action against the Cunard steamship sailing under the ensign of the British Government, and the thing will be brought to an end. The first question that springs to the mind is, 'Is the President in earnest?' If yes, let him enforce retaliation by the power he has had since March, 1887. If he will do that, he will show that his paper is a message of a statesman and not of a campaigner on the stump."

ON HISTORIC GROUND.

Gen. Harrison Given a Reception at Put-in-Bay.

PUT-IN-BAY (O.), Aug. 31.—[By the Associated Press.] This was a memorable day for the 500 residents of Put-in-Bay Island. Early this morning the islanders began to make preparations for the reception and entertainment of their guests, Gen. Harrison and his party. Banners were flying to the breeze, flags were raised and houses and cottages draped in honor of the expected guests. By 10 o'clock the residents of the neighboring islands began to arrive, dressed in holiday attire, and their little yachts sailed into the harbor. They were welcomed by the residents. An excursion boat from Toledo brought 400 excursionists, and a steamer from Cleveland and another from Detroit brought a large number of people. The yacht Ganges, with Gen. Harrison on board, arrived at 2 p.m. The General was accompanied by ex-Gov. Foster, Judge Cummings and other friends. The party was escorted to the pavilion, and John Brown, Jr., arose and announced that Gov. Foster made a few remarks, and introduced Gen. Harrison, who spoke as follows:

"I do not intend to speak to you about any of these questions that are engaging your minds as citizens of this prosperous and mighty and happy Nation. We are here today as Americans, proud of the flag that symbolizes this great United States, proud of the story that has been written by our fathers in council, in war, in the fortification and defense and perpetuation of our magnificent institutions. We are here in the immediate neighborhood of one of those great historic events that was among the most potential agencies in settling our title to the great Northwest. If we had stood where we stand today we could have heard the guns of Perry's fleet. If we had stood where we stand today we could have welcomed him as he came a victor into Put-in-Bay. These institutions of ours are in our own keeping now, and not only our fundamental institutions, but the fame that has been won by those who have been engaged for I may, therefore, properly say today that a campaign like this demands the thoughtful consideration of every American voter."

The story of our progress, of our development in wealth, of our achievements in finance as a Nation since and during the war is almost as notable and admirable as that of our achievements in arms. The assembling of our revenue was more difficult than the assembling of armies, and yet we are able to maintain those armies in the field, and have been able since to keep the great loss of debt and to pay it off, until that which was once thought to be a burden that would crush our industries has become to our hands but a ball that a boy tosses in play. We are confronted today with the question, not how we shall get money, but how we shall wisely stop some of these avenues by which wealth is pouring into our public treasury. It is an easier problem than that which confronted the great War Secretary in those years you so delight to raise revenue to prosecute the war successfully. It will be wisely solved, and I may note also the fact that notwithstanding this complaint of excessive revenue, there are some who suggest that they are not able adequately to raise popular indignation against excessive taxation, because they can not disclose to the people when or how they are paying taxes. It is taken, they say, so indirectly and so subtly that our plain people do not know that they are paying them at all. But I must not cross the line of party discussion. I have had a pleasant stay in this most delightful neighborhood, and I cannot let this public opportunity pass without expressing for myself and for Mrs. Harrison our most grateful appreciation of the kind and thoughtful hospitality which has been shown to us by the people of this island."

At the conclusion of the General's address he took a position on the steps of the pavilion, and Gov. Foster announced that all who wished to meet Gen. Harrison personally could have an opportunity. The crowd passed before the General, shaking his hands vigorously. By 8 o'clock the visitors had nearly all taken their departure. Gen. Harrison and party returned to Middleburg early in the evening. The General intends to start for Indianapolis on Tuesday.

TOLEDO (O.), Aug. 31.—It is understood

that Gen. Harrison has spent some of his leisure time at Middleburg in preparing his letter of acceptance, and it is believed by his friends that he intends to make it public as soon as he returns to Indianapolis. An early lunch was served today at the Middleburg clubhouse, after which Gen. Harrison and his friends crossed to Put-in-Bay to attend the formal reception.

## BLAINE SPEAKS.

The President's Sham Attack on Trusts Shown Up.

DOVER (Me.), Aug. 31.—[By the Associated Press.] Hon. James G. Blaine spoke at Foxcroft this afternoon. In opening his remarks he proceeded at once to the consideration of trusts, charging that they flourished to a greater extent under the free-trade policy of England than under the protective policy of the United States.

He said that the President should have known when he arraigned trusts in his message to Congress that Congress could not dissolve them when their charters were from State Legislatures or their organizations under State laws. It had been confessed by the Democratic House Ways and Means Committee, by Chairman Mills and every man that stood as an advocate of free trade, that trusts had no possible legal connection with the tariff. The President's charge that trusts had their origin in the protective tariff had not a foot of ground to stand on, and was contradicted in every line of free-trade experience. Trusts have no place in the national campaign. There are State issues, and the Republicans of Maine at least can be depended upon to look after those in their own State.

## Secretary Litchman Resigns.

PHILADELPHIA, Aug. 31.—General Secretary Litchman of the Knights of Labor has resigned, to take effect September 8th. Litchman says he resigned in order to freely take part in the present campaign. The resignation is accepted by Powderly, who has appointed John W. Hayes secretary of the General Executive Board to fill the vacancy until the General Assembly meets in November.

## To Strike Today.

PITTSBURGH, Aug. 31.—A general strike of fitt-glass workers of the country is expected tomorrow, when the new scale for engravers is supposed to go into effect. The engravers demand not less than 18 cents per dozen for engraving, and the manufacturers say they cannot pay such an advance, which is about 50 per cent on the cheapest grades of glassware. Suspension of work in New York and all the factories in the country is probable. About 2000 will be affected.

## A New Rate Schedule.

SAN FRANCISCO, Aug. 31.—The Sunset route will put into effect tomorrow a new rate schedule for New York business, quoting substantially the same rates as those in the proposed commodity tariff of the Transcontinental Association. The new commodity rates from interior points in the East will go into effect tomorrow, along with the other association rates. A passenger rate cutting comes tomorrow by agreement with the agents.

## A Vast Irrigation Scheme.

SAN DIEGO, Aug. 31.—A private dispatch states that concessions have been granted to the Mt. Tecate Land and Water Company for the construction of seven mountain reservoirs on the border line or in Lower California, to hold water from a watershed of 1200 square miles, or sufficient to irrigate 100,000 acres of land in this county and Lower California. It is estimated that the works will cost \$5,000,000.

## Explosion in a Colliery.

SCRANTON (Pa.), Aug. 31.—A terrific explosion of gas occurred at the colliery of the Pleasant Coal Company this afternoon, working ruin and destruction in the mine and causing death and injury of a number of employees. It is impossible to learn particulars, as exploring parties are hindered from entering until the danger from after-damp is over.

## A Chester Victim's Estate.

SAN FRANCISCO, Aug. 31.—William S. Gage, Jr., filed a petition in the Probate Court today for letters of administration of the estate of Helen Maria Hampton, one of the passengers of the Chester. The petition reports that the estate is valued at about \$100,000. The heirs are John, Clay, Grace and Ida Hampton.

## The Queen of the Pacific.

SAN FRANCISCO, Aug. 31.—The steamer Queen of the Pacific will make a trial trip next Sunday, prior to her departure for San Diego. Commander Hollis of the navy has examined the steamer with a view to ascertaining whether she can be used as a war vessel in case of war. He will report to the Navy Department.

## Killed by a Blast.

SEATTLE (Wash.), Aug. 31.—An explosion occurred yesterday on the line of construction of the Seattle, Lake Shore and Eastern Railway near Snoqualmie Falls. Three men were killed and several wounded. A series of blasts had been exploded, but did not explode until the men came near to resume work.

## A Mammoth Saw Mill Burned.

EAU CLAIRE (Wis.), Aug. 31.—A telegram from Fairchild, this county, says: W. C. Foster's mammoth saw mill was destroyed by fire this morning. Loss, \$80,000; insured for \$50,000.

## A Merchant Murdered.

OWENSBORO (Ky.), Aug. 31.—Yesterday James Hardesty, the principal merchant of West Louisville, was shot and killed by William Murphy, a leading farmer. The cause is unknown.

## Maricopa Demorats.

PHOENIX (Ariz.), Aug. 31.—The Maricopa Democrats today nominated S. F. Webb for the Territorial Council, E. J. Edwards and W. L. George for the Assembly and W. T. Gray for Sheriff.

## His Injuries Proved Fatal.

STOCKTON, Aug. 31.—Patrick Bray, whose leg having been crushed in a hay press, had to be amputated, died in the hospital tonight.

## "Mr. Crowley" No More.

NEW YORK, Aug. 31.—The famous educated chimpanzee known as "Mr. Crowley," in Central Park, died this morning.

## Thirteen Persons Drowned at Hot Springs, Ark.

The Town Visited by a Sudden Flood at Night Time.

The Victims Given No Warning—Great Loss of Property.

Yellow Fever Holding a Carnival of Death at Jacksonville—Five Cowboys Killed in an Angry Fight—The News from Beyond the Rockies.

By Telegraph to The Times.

LITTLE ROCK (Ark.), Aug. 31.—[By the Associated Press.] The Gazette's Hot Springs (Ark.) special says: Today was an epoch in the history of Hot Springs. There is ruin and wreck to meet the vision everywhere, and nothing has ever been known to compare with the results of last night's storm, which occurred too late to be telegraphed. There was a water-spout, and the valley was swept by a mighty tidal wave. The loss of property is fearful, while the sacrifice of human life is, under the circumstances, appalling. Swift and terrible was the visitation, and without warning. People were awakened from slumber to find themselves threatened with destruction by the mad waves. Strange to relate, few people were conscious of the horrible disaster till they awoke to look upon the desolate scenes this morning, and drag the drowned from the drifts. The storm struck the town about 11 o'clock last night, from a northwesterly direction. It was accompanied by stiff, cool winds, though not strong enough to produce damage. The rain fell in torrents from 11 to 1 o'clock without cessation; indeed, those who were up and witnesses of the awful scene describe it as one never before seen by them. The vivid flashes of lightning displaced great sheets of falling water. At the close of the storm great and ominous sounds, mingled with the shouts of people and

cries of distress that went up from the valley, and such citizens as were in the vicinity of the creek and ravines went forth to render assistance. The flood on Central avenue, the principal thoroughfare, seemed an angry river, rushing with everything movable on its bosom. For over half an hour the avenue was transformed into a torrent 50 yards wide. Boxes and parts of houses came down on the tide and were left strewn on the sidewalks. Several large hotels were flooded to the depth of four feet with murky water. Many buildings were totally wrecked. Up to this hour six persons are known to be missing, five of whom have been found dead in a wrecked building. The damage to property is estimated at \$100,000.

## THIRTEEN DROWNED.

LITTLE ROCK (Ark.), Aug. 31.—George W. Bean of Lancaster, Pa., and C. H. Coolidge of Cincinnati have just arrived here from Hot Springs, and say that the desolation is beyond description. They say that 13 people were drowned. Nine bodies have been recovered, and requests have been held on four. The lost are mostly colored people. Owing to the despair and confusion they could not learn the names of the drowned or the amount of damage done. Telegraph wires are choked and it is impossible to get further particulars.

## YELLOW FEVER.

The Epidemic in Full Sway at Jacksonville, Fla.

JACKSONVILLE (Fla.), Aug. 31.—[By the Associated Press.] The epidemic is in full sway in every part of the city. Today's report is 23 new cases and four deaths during the past 24 hours.

## CARING FOR THE REFUGEES.

WASHINGTON, Aug. 31.—Surgeon-General Hamilton received the following telegram from J. J. Daniel, president of the Jacksonville Citizens' Auxiliary Committee:

"In the name of our people and humanity, I protest against the order for the detention of all refugees from our city and State at the refugee's camp. It would be better for us to keep our women and children here rather than subject them to such treatment."

Dr. Hamilton sent the following reply:

"Your requisition for 200 tents was approved. You are mistaken as to the character of the camp, which is in charge of one of the most prominent officers in the service, and none in the country stand higher as to professional ability. The camp is located in one of the healthiest places in the Florida pine woods, on the river bank, originally intended by the railroad as a picnic ground, and taken by Dr. Gutierrez as the best place for his camp. He was some days ago directed to have some tents set apart a quarter of a mile distant from the main camp for the observation of persons sick. Pollard, who was returned to Jacksonville, was sick on arrival at the camp. He evidently had fever when he left Jacksonville. With the general spread of disease in Jacksonville it is useless to expect that persons should be allowed to mingle with other passengers on outgoing trains. Special excursion trains will be provided for passengers to definite points. Murphy, in North Carolina, has opened his doors, and is the only place reporting itself. If the residents wish they can go to Murphy or any other points in Western North Carolina on their parole, but not to go to the seaboard or quarantined towns within ten days from the date of their departure from Jacksonville. Excursion trains will be provided as soon as the number of trains required can be definitely ascertained. Please estimate the number of people now in Jacksonville willing to go on parole, that suitable arrangements can be made for transportation."

## FIVE DROWNED.

A Party of Cowboys Caught by a Freshet.

DENVER (Colo.), Aug. 31.—[By the Associated Press.] The News Pueblo special says: News is received in this city of the drowning of five cowboys just west of Pike's Peak. A large party were attending a cattle round-up on Tuesday night. Seven of them pitched their camps on Beaver Creek, a small stream that usually has no water in it. Being very tired all slept sound, paying no attention to a slight storm that came up during the night. It, however, proved to be a large black cloud in the distance above them. The result was water six feet deep sweeping down upon them and carrying everything in its path. Seven sleeping cowboys were carried down. By a hard struggle two of them managed to get hold of branches of trees and clinging to them until the flood subsided, which was almost as quickly as it came on them. The bodies of five men were found scattered along the bed of the stream one to five miles below their camp. The names only of Plasher and Royal have been ascertained.

## MICHIGAN'S EPIDEMIC.

SHERBOGAN (Mich.), Aug. 31.—There is no telegraphic communication with Presque Isle county, where the alleged cases of cholera appeared, and no further advice is received. The only paper published in the county says the disease is undoubtedly contagious, but all means of its spreading will be prevented. Many persons have died, and many are laboring between life and death. The late frosts, however, lend encouragement.

## A LITTLE FIGHT.

M. J. Curtin and John Curtin got into a fight yesterday at the Southern Pacific depot. They were arrested by Officer Rulo and taken to the police station, where they were released on the deposit of \$5 each.

## A BIG LAND CASE.

C. H. Dimmick Sues for \$100,000 Worth of Property.

The lawsuit involving the title to a good deal of valuable property on Spring street, between Second and Third, known as lots 8 and 9, block 3, Ord's survey, and some other property, less valuable, on San Pedro street, which was foreshadowed some months ago, was commenced by the filing of a complaint in the Superior Court yesterday. The suit is brought by Charles H. Dimmick, who represents the joint interests of himself, Sarah H. Dimmick, Webster and Frank H. Dimmick, against George Carson, Julian Valdez and 16 other defendants. The title will be ripped up away back to 1861, when Kimball H. Dimmick died in this city without a will, and supposedly without heirs. George Carson was then Public Administrator, and he applied for letters on the estate, which were granted, and subsequently he sold the property. The Spring-street lots went to Julian Valdez for \$67, and the San Pedro-street lots were purchased by Mary J. Cashel for \$100. The complaint alleges that the issuance of letters to the Public Administrator was irregular, and the proceedings thereunder fraudulent, that no notice of sale was made, and no order of court was issued for the same. Wells, Van Dyke & Lee are attorneys for the plaintiff. The property in dispute is worth not less than \$100,000, and there will be a hard contest before the present owners will consent to give it up or effect a compromise.

## PRESSED IT TO HER BREAST.

She Had Chief Cuddy's Picture on Her Mantel.

One of the sensations agitating San Francisco just now is the trial of Mrs. Eloise Gutierrez for attempted blackmail of Dr. R. A. McLean. The case was commenced in Judge Lawler's Police Court last Wednesday. According to the testimony adduced, Mrs. Gutierrez is a pretty tough citizen. Detective Hogan swore that on a certain occasion, when she had created a scene in Dr. McLean's office, he took her away, and accompanied her with another woman to her room, where she commenced to doze herself. An incident of the testimony at this juncture, as published by the world's potentesses, unusual interest for some people in Los Angeles. Detective Hogan continues:

"Then she took the picture of a man in police uniform from the street and pressed it to her breast. His name is Cuddy, and he is Chief of Police of Los Angeles," she cried. "He is my true love, and I have been intimate with him." I told her that he would probably like her name being mentioned, being a man of prominence. "What is his prominence," she said, "to these men?" and she named several prominent citizens.

The Court excused Mr. Hogan from mentioning their names.

## A CLUB OF "MACS."

It was reported on the streets yesterday that the "mags" of this city have organized a Democratic club, with one of the Abbot boys as president. They have made up their minds that their only salvation is to defeat the Republican party this fall.

## A NUISANCE.

There is complaint about a burning manure pile at the street-car barns on Boyle Heights. It has been on fire for four or five days, and yesterday water was turned on it, causing a fearful stench. The people in the neighborhood want the nuisance abated.

## OUR NEIGHBORS.

VALUABLE IMPROVEMENT—ASSESSED VALUE—POLITICS.

POMONA, Aug. 30.—[Correspondence of THE TIMES.] Everything in Pomona is moving on as usual at this season. Many of our citizens are at the coast and many more are in San Antonio Cañon. This is our season of rest from business. Merchants are doing very little. The transactions in real estate are few and far between, but we all have great faith in our future prosperity. The beautiful building for the People's Bank, erected by C. E. White, Esq., is about completed. It is one of the most artistic buildings in Los Angeles county. The Oxnard block will be occupied on the 1st inst. The addition to our winery is completed, and today ground was broken for the erection of the bank building for our First National Bank. It will be a beautiful three-story building of brick and stone, and would be an ornament to any city. Our cannery is running to its full capacity, and if it was double its size could not handle all the fruit of this valley. The cannery company has been reorganized, and the capital stock increased to \$50,000. Two full lots adjoining the present site have been purchased, and additional buildings will be erected, and more machinery put up before another season. Our four lines of street cars run regularly, and are doing a fair amount of business. Our City Trustees have ordered cement sidewalks 12 feet wide on our principal streets, and they are being put down. Our streets are now lit by gas. In fact, we have a thriving, prosperous little city.

The assessed value of property in the city limits is \$1,700,000. The Trustees have levied an assessment of 85c on the \$100, to be used in carrying on the city government. The saloon license is \$50 per month, and with the other licenses it amounts to about \$1000 per month.

Politics is getting exciting. The Democrats had a meeting last Saturday evening, and of all the stale, foolish, misleading arguments advanced I never heard worse. The thinking men of that party were disgusted. It is hoped they will be continued, for all such talks help the Republicans. For instance: One speaker attempted to show that a protective tariff made labor lower, and as an illustration, cited Mexico, which country, he said, had a high protective tariff, but that labor was very low, in fact, that a man had to accept whatever wages were offered. The statement was misleading. It is true Mexico levies a large tariff on imports, but it is not a protective tariff, because that country has no industries to protect.

We have a large and enthusiastic Republican club of nearly four hundred in number. On Saturday evening we will open the campaign. Our band, one of the best in the county, will be out. There will be fireworks, our glee club will sing five or six new campaign songs, and last but not least, we will have John G. Lindsay of Pasadena, late of Kansas, and G. W. Phibbs of this place to expose the insincerity of the Democrats and the fallacy of free trade.

Pomona has but one candidate on the Republican ticket, Hon. J. E. McComas for State Senator in the Thirty-ninth District. He will receive a hearty support. He is a very popular here and in the southern part of the county where he formerly lived. His opponent is a good man, but there can be no reason why he should receive one Republican vote. It has been said that the Democratic State Central Committee have set their hearts on carrying this district this year, and that they intend to use money freely to that end. I do not think they have money enough to convert a strong Republican district to Democracy in a year, when the vital interests of the county are at stake, particularly when we have such a good citizen as McComas for a candidate.

The Great Bicycle Contest Takes Place at Oakland Park.

Execution of a Murderer at San Andreas—Horrible Affair.

Wine-makers of the State Urged to Hold on to Their Product for Higher Prices—A Pool Formed on Freight to China—Notes.

By Telegraph to The Times.

SALT LAKE, Aug. 31.—[By the Associated Press.] At the regatta at Garfield Beach today the greatest crowd ever seen on Salt Lake assembled. Fully 6,000 people attended, and business was generally suspended this afternoon.

The Delawares won the double-skull race in 11:31, the Modocs second in 11:50, the Farraguts third in 11:53, the Sylvas distanced.

Corbett of the Farragut's won the single skull race in 12:27, Gustich of the Modocs second in 12:36, Fleming of the Sylvas third in 12:30. Kort of the Delawares did not row, having broken his boat.

The Modocs won the four-oared race in 9:32, the Farraguts second in 10:09, the Sylvas third in 10:03.

The water was rough and there was a stiff breeze. The crews consent to an extra day, and will row again at Garfield tomorrow.

## AT THE FAIRS.

Speed Contests at Grass Valley and Marysville.

MARYSVILLE, Aug. 31.—[By the Associated Press.] First race, 2:40 class, purse of \$300—Argent won first and third heats, Lohengrin the second, fourth and fifth heats. The owner of Argent entered a protest, claiming that the winner had a better record than the one entered for. This will be considered by the society. Best time, 2:33 1/2.

In the ladies' riding tournament there were 11 competitors, all well mounted. The winners will be announced tomorrow.

Veregene won the mile dash running race in 1:44 1/2, Minnie K. second.

In the 3:30 trotting race Gossp took two heats and Sunflower one. The race was postponed until tomorrow on account of darkness.

GRASS VALLEY, Aug. 31.—Mile and a half dash—Haldee won. Time, 2:39. Index was second.

Five-eighths of a mile and repeat—Painkiller won, Bluebonnet second. Best time, 1:43 1/2.

Special trotting, three in five, mile heats, purse of \$400, three starters. In the first, fourth and fifth heats, Pasha won. In the second and third heats Bedford won. Best time, 2:33 1/2.

Special trot, three in five, purse of \$300, five heats—Senator Bones came in first, but was put fifth for running, and Lady Washington was given the heat. The three other heats went to Dandy Jim. Best time, 2:52.

Flora B. in the half-mile running, beat Dollie. Time, 54 seconds.

## SPORT AT OAKLAND PARK.

SAN FRANCISCO, Aug. 31.—The attraction at Oakland Park today was the bicycle race, two miles, for trophies valued at \$100. Entries: W. G. Davis of the San Francisco Bicycle Club, scratch; A. S. Ireland of Alameda, 50 yards handicap; K. W. Turner of the Bay City Wheelmen, 50 yards; Charles B. Fonda of the San Francisco Bicycle Club, 70 yards; R. A. Smythe of the Bay City Wheelmen, 100 yards; Louis Sears of Oakland, 120 yards; Charles Townsend of Oakland, 130 yards; A. M. Brown of Alameda, 130 yards. Sears led at the start. Davis overcame his handicap at one-eighth of a mile and pushed Ireland for first place. The latter won, however, by two feet, Turner third. Time, 6:30 1/2.

Trot for the 2:28 class, three out of five, for a purse of \$1000, six entries—Falls won in first place, Senator Diego took second, fifth and sixth heats, Mink first and third, Little Hope winning the fourth. Best time, 2:21 1/2.

## THE SEASON'S VINTAGE.

A Moderate Yield—Prices Expected to Advance.

SAN FRANCISCO, Aug. 31.—[By the Associated Press.] The special committee of the Grange growers and wine-makers United completed their report today. The committee recommends as a remedy for low prices the suppression of all inferior grapes and wines, and advises the drying of all grapes of the Mission and Malvoisie varieties. The committee estimates that on account of insects, etc., the State will make less wine than in 1886, but a little more than in 1887.

The report says: "We believe that a liberal estimate would amount to 17,000,000 gallons. Of this 12,000,000 gallons will be made in coast counties. Of remainder, from the interior, a large part is annually converted into brandy and sweet wines. Altogether, over 4,000,000 gallons of wine will be distilled, leaving in the neighborhood of 13,000,000 gallons to be offered for sale during the coming year. We find that the consumption of wines on the coast will be about 5,500,000 gallons and the exports 7,500,000. Thus it may be seen that there is no present overproduction. We estimate the total amount of wine in the State in makers' hands at 4,000,000 gallons, only about one-third of which is for sale. With these facts in mind, we caution our wine-makers against the sacrifice of sound, marketable wines, believing that prices must soon be better."

## HANGED.

Execution of Cox at San Andreas—A Horrible Spectacle.

SAN ANDRAS, Aug. 31.—[By the Associated Press.] George W. Cox was hanged today for the murder of his son-in-law, Henry G. Cook, last November.

The condemned man was taken from his cell at 10:30, and when he reached the scaffold he took a seat and asked if the rope and knot were all right. He was then placed on the trap and the steps adjusted, during which operation he trembled violently. As the rope was being placed around his neck he exclaimed: "Boys, I'm not sorry for anything I've done!"

The cap was then adjusted, and the drop fell. The rope cut the carotid artery, which caused a sound like escaping steam. Ten minutes later the body was cut down and placed in a coffin. On examination the doctors found that the neck was dislocated, and that the rope had cut all but the cervical muscles. The condemned man died without a struggle.

## A FREIGHT POOL.

Rates on Flour to China Further Advanced.

SAN FRANCISCO, Aug. 31.—[By the Associated Press.] The three steamship lines which have been struggling for the China trade have formed a pool on flour rates. This morning agents notified the shippers that hereafter the schedule rate will be \$7 a ton to China. The agreement, which has been entered into by the Pacific Mail, Occidental and Oriental and Canadian Pacific companies, is the result of a conference between Traffic Manager Rice of the old lines and the agents of the Canadian Company. Mr. Rice said this morning:

"During the last few months the Pacific Mail, Occidental and Oriental and Canadian

Pacific companies have been cutting their throats. Freight has been ridiculously low on outward bound cargoes. Flour has been carried about 6000 miles for \$2.50 a ton, and on every item rates have been forced down below what they should be legitimately. At the same time, Chinese steamer passage was marked down so that there was actually no profit in carrying Chinese, although this used to be one of the most lucrative items in the business. The Pacific Mail and Occidental and Oriental lines on one side and the Canadian Pacific on the other became weary of this kind of business. There was no money in it, and so some days ago there was a conference. We have all agreed to put up the flour rate to \$7 a ton. When it was \$2.50 a ton it was no better than ballast, but at \$7 there is reasonable profit in handling it. "Are any other rates affected?" was asked.

"Not as yet," said Rice. "Flour is the principal article of export to China, and naturally it would be the first article to receive attention."

## The Graham Murder Case.

SANTA CRUZ, Aug. 31.—In the Superior Court today District Attorney Jetter moved that the case of Jesse Graham, held for the murder of Joseph Bennett, 38 years ago, be dismissed on the ground that it would be impossible to convict the defendant owing to the lapse of time between the crime and trial. The court took the matter under advisement.

Arrived at San Diego.

SAN DIEGO, Aug. 31.—Ex-Gov. Merrill of Iowa has arrived.

Tan Game Pulled.

Last evening about 7 o'clock Officers Boland and Fowle "pulled" a tan game on Marchessault alley, capturing six players, seven of the outfit getting away. They were brought to the police station, where they were locked up until their friends could put up \$25 cash bail for the dealer and \$10 each for the players. For some time past there have been suspicions that some of the games were running on the sly, but this was denied by both the officers in Chinatown and the heathen themselves. Last night's raid shows that the suspicions had some very substantial foundation in fact. The capture was a particularly good one, and reflects great credit on Officer Boland, who engineered it. The entrance had to be effected through a rear window, and it required considerable strategy to get past the vigilant guard on the outside. Of course there are probably other games going, and it may take some time to get them, but by perseverance and hard work they can all be put down.

## PASADENA.

## Meeting of the Board of Trade—The Columbus Exhibit.

PASADENA, Aug. 31.—[Correspondence of THE TIMES.] An important special meeting of the Pasadena Board of Trade was held on yesterday afternoon. The Columbus (O.) exhibit matter came up first, and was the subject of much discussion. A sufficient sum of money having been raised, a direct engagement was made with Mr. John McDonald, who was made the agent of the board in this project, and he was instructed to forward the exhibit to Columbus, and make all arrangements necessary for its public exhibition at that and other eastern cities. There are near a hundred views of Pasadena residences, business houses, hotels, drives, etc., already on hand, and citizens are now quite anxious to have their dwelling and grounds photographed and exhibited, at the low price of \$5 per view (and it is presumed extra copies for home use can be cheaply obtained of the photographer, Mr. Lamson), and Mr. Masters or some of the committee should be at once by all intending to avail themselves of this opportunity. A local exhibition of these views, through the instrumentality of a stereopticon and powerful light, will be made on Tuesday evening next, at the Tabernacle, for the purpose of allowing Pasadena residents to see what is being done to advertise their city and to raise additional funds to help pay the large expense attending the undertaking. All Pasadena people should turn out, pay the necessary money to put the enterprise before our eastern friends in good shape, and amuse and instruct themselves at the same time. Tickets may be had of any of the committee.

## ODD FELLOWS NEXT MONTH.

Col. Ray, chairman of the Odd Fellows' Entertainment Committee, reported that about 800 to 1000 persons would be invited, and that a magnificent collation would be spread for them under the shade of the large pepper trees on South Main avenue, which will be well roped in for the purpose, and this very necessary branch of the entertainment of our guests will be under the auspices of the Daughters of Rebecca.

The report was approved and the committee will present subscription blanks to the citizens for the purpose of raising the funds necessary to carry this enterprise to a successful issue. Pasadena, you now have an excellent chance to do yourselves proud, so don't hesitate, but step up to Col. Ray, or others of the committee, and subscribe liberally. The importance of this thing can hardly be overestimated, for there will be people sent here to the Sovereign Lodge from the utmost parts of the earth, and the players in *Hamlet*, you must have their good report.

## THE SOUVENIR.

In regard to the advertising matter in the souvenir to be published under the auspices of the Pomological Society, and presented to the Sovereign Lodge members, their friends and others, came up for discussion, and although all acknowledged the desirability of such a mode of advertising this city, no definite plan was adopted.

The pamphlet under preparation at Buffalo was said to be about ready for distribution, and about 1000 copies are to be sent Mr. McDonald for proper distribution at Columbus, O.

Mr. B. A. O. Mill presented a petition and asked immediate action thereon. It reads as follows:

"To the Honorable Board of Trustees—GENTLEMEN: Believing that the present operation of ordinance No. 45 of the city ordinances relative to the use of wines and liquors in hotels to be absolutely hurtful to the business interests of Pasadena, we would respectfully suggest to your honorable body the addition of an amendment to said ordinance, which will allow hotels and restaurants the privilege of serving wines and liquors to their guests at meals. If your body does not feel liberty to amend said ordinance, we suggest the advisability of promptly calling an election of citizens to vote on said amendment to ordinance 45."

A long and animated discussion followed the introduction of this petition, and, while all seemed to favor the spirit of the petition, there were many differences of opinion as to the proper way of arriving at the end desired. A motion to present the petition to the City Trustees, with a recommendation for the passage of an amendment as prayed for, was adopted, but afterward reconsidered and withdrawn, but will come up for action at the meeting of the board on next Tuesday.

## POSTAL DELIVERY.

Mr. Kirkwood, Postal Inspector, will not, it is understood, report favorably on free postal delivery for Pasadena. Postmaster Masters is laboring hard with this gentleman to convince him of the advisability and practicability of this delivery here, and Mr. Masters secured the visit to this city today of Mr. Monroe, another postal inspector, for a more extended study of the subject, and it is to be hoped that Mr. Masters' laudable efforts may meet with success.

## Y.M.C.A. MEETING.

An important monthly business meeting of this body was held last night at the association rooms. There was much interest expressed in the matter of again commencing work on the new building of the association. It is expected that the new building will be ready for occupancy before the end of the year. Many new members are being added to this body at every meeting.

## DAUGHTERS OF REBECCA.

The daughters meet on special call tonight, to consider ways and means to prepare a first-class lunch for the visiting Odd Fellows and other business.

## PERSONALS.

George Gardner goes to Catalina tomorrow.

Dr. T. Nichols returns from Catalina tonight.

S. H. Adams, Capt. McLain and Mrs. M. A. Freeman were among those starting east last night.

Officer Petrie's wife returns to the city this evening, but will again go to the beach on Monday.

Mr. Throp and wife go to Chicago in a few days, and while there will celebrate their golden wedding.

Mrs. Dr. Fernald of Washington, D. C. is visiting Mrs. Dr. Kelsey.

W. E. Arthur departs for Catalina tomorrow.

Mrs. Oscar Nay and Mrs. A. D. Crowell visit to Redondo Beach end today, when they returned to this city.

Col. Picher and family are still at the beach.

J. H. Baker of the Aerie Hotel is back from the beach, and seems in excellent health.

## The Party of Reform.

New York city officials issue naturalization papers for foreign captains and masters of vessels to take abroad with them for emigrants they bring to this country under contract. No wonder New York city is Democratic, naturalizing her citizens on the other side of the Atlantic.

## LETTERS TO THE TIMES.

## Dead Daft Over a Demagogue's Defection.

LOS ANGELES, Aug. 31.—[The Herald of today devotes the major portion of its leading editorial to the defection of Congressman Ashbell P. Fitch of New York from the Republican party, and quotes largely from his letter to the State Central Committee.

But, as usual, the Herald juggles with truth, and makes no mention of the causes which led up to the writing of the letter. As soon as Mr. Fitch had placed himself on record by voting in favor of the Mills Bill, he went post haste to New York to explain his action to his constituents, and, if possible, prop up his Congressional fences. His reception in his district afforded a beautiful example of a paradox, inasmuch as it was "decidedly warm and remarkably chilly."

The Harlem Club, of which he was an executive member, refused to listen to his explanations, and by an unanimous vote read him out of the organization, and their action has since been ratified in mass meeting by his outraged constituency.

In view of these facts, Mr. Fitch is wise in his generation when he states his preference to rest within the bosom of "the minority for the rest of his life." His permanent retirement from Congressional honors is a foregone conclusion. The loss of Mr. Fitch's services to the Republican party is more than compensated for by the vote of Mr. Lowden of Pennsylvania, a Democrat who voted against the Mills Bill, and who has since been notified that the Republicans of his district have endorsed him for a renomination. The situation in New York city has resolved itself into a faction fight between the various county organizations, yet, as was the case during the Hancock campaign, and the same result may be looked for. In addition, Cleveland, who is almost universally hated by the rank and file of his party in New York county, will be left. I make this statement advisedly, as I am perfectly familiar with the complexion of affairs in New York city.

JOHN C. WRAY.

## Public Oratory.

LOS ANGELES, Aug. 31.—[To the Editor of THE TIMES.] Now that the campaign is about to open in earnest, and we are to have paid orators, let us have good ones, and not the regular jumping-jacks who pop up here and there every four years. Such are always ready to spout for the holy cause, to join the crusaders, to invade the neighboring territories, provided they get free passes and plenty of money. Forsooth, they are orators, and can sway the masses.

Cicero, with all his egotism, was not vain as most of these orators are. Cicero, who are not capable of an original thought, a flashing idea, a brilliant conception, clearness of eluciation, and are devoid of pathos and sparkling humor.

These would-be orators are great metaphysicians, rhetoricians, grammarians, but how about their logic? A good syllogism puts them in a hurry. They are not to be first class in every particular. Dr. Carroll is a graduate of the Baltimore College of Dental Surgery, and a member of the State Board of Dental Examiners.

## ICE ICE

## Ice No Longer a Luxury in Los Angeles, Thanks to an Enterprising Company.

The inhabitants of this progressive and rapidly growing city have another proof of the faith eastern capital has in its future. There has just been completed in this city the largest and best ice manufacturing and cold-storage buildings in the world, by the Los Angeles Cold Storage and Hendrick Ice companies. The ice-making capacity is 50 tons daily. Our competitors claim that cheapening the price of ice will not increase its consumption. We believe different. We believe that ice is wanted for the preservation, in private houses, of meats, milk, butter, vegetables, and for ice water, ice tea, ice cream and other purposes, and that the exorbitant prices only have heretofore prevented its general use. We are confident of your patronage, as we are the direct and only cause of the reduction in price.

In connection with our ice and cold-storage buildings we have erected large smoke-houses, and offer you, through the grocers and butchers, the only meats smoked here. They are much better than other meats, which all have to be brought across the desert. Ask for our "Lily" hams and bacon. No skippers! They are moid, full weight. Orders for ice may be sent to us through the mail, or telephone 228, or orders left at Mercereau & Myers' Cigar Store, corner First and Main streets, or burning and supply company, 518 North Main street, will receive prompt attention. C. E. Tibbets, Superintendent, Ice Department, M. Dodsworth, General Manager. 9-1

## TO THE PUBLIC.

The Bituminous Lime Rock Paving and Improvement Company.

Take this opportunity of informing the citizens and property-owners of this city that the pavement laid on Main street, between First and Third streets, is now bituminous lime rock, but is an artificial mixture, and not laid by our company. We make this announcement for the purpose of disabusing the minds of those who entertain the belief that this pavement was laid by this company, and are disposed to criticize our material as being soft and not suitable for the streets of this city. The only bituminous lime rock pavement here was laid by this company, and extends on Main street from the south line of Third to Ninth street, and on Spring street from Temple to Ninth street. Bituminous lime rock does not become soft and mushy under the heat of the sun, but always remains firm and elastic. We have already laid on the streets of this city about 500,000 square feet of this pavement, to which we take pleasure in inviting inspection. Bituminous lime rock, Bituminous Lime Rock Paving and Improvement Company, J. A. FAIRCHILD, General Manager.

## A TESTIMONIAL.

From the Main and Agricultural Park Railroad Company.

We have used Dr. Flynn's Blood Purifier for the horse and his Maud S. Liniment for about two years. These medicines have been constantly in use for the treatment of indigestion, bruised or otherwise injured animals. They have been successful in every case, and are indispensable, and have relieved the company of the expense attached to the employment of a veterinary surgeon. We would not be without them, and cheerfully recommend them to the owners of horses. E. M. Loricke, Superintendent.

Dr. P. H. Flynn, 104 North Main street.

Dr. Case & Carroll, Dentists. At 41 South Spring street, Los Angeles. Great reduction in prices. Gold fillings, \$2 and upward; gold and platinum fillings, \$1.50; amalgam fillings, \$1.00. Bridge work, gold and porcelain crowns, cheapest in city; painless extraction of teeth by root and crown. Nitrous oxide gas administered, \$1 extra; sets of teeth, the very best, \$10; partial sets, in ivory, \$5. Our work is to be first class in every particular. The Times will be represented on the occasion.

About 9 o'clock night before last two ladies who were going from Sixth street to Park to Pearl street, were followed by some rowdy and grossly insulted. There is no electric light in that quarter, and citizens are calling loudly for a means of safety. The undisturbed gang of "mugs" are rendering the public streets very insecure for ladies who go out on an evening unattended.

The case of Soto, the 14-year-old Mexican boy charged with ravishing a little 3-year-old child, Lillie Vest, was on trial before Judge Cheney yesterday. The testimony of the child herself and of her 6-year-old brother was read for a few minutes, but did not manifest enough intelligence to show that they understood the character of an oath. The testimony for the prosecution being all in, the case was continued until today.

Work will be commenced in a few days in clearing away the old buildings on the northwest corner of Second and Main streets, to make way for the new Burdick block. The block will have a facade of red sandstone, brown pressed brick and terra cotta. It is planned to be six stories high, and will cost \$140,000 when completed.

Fred Eaton, who is engineering the project, thinks that he may not build more than two stories at present, though the walls will be made strong enough to carry up the other four stories at a future time.

A very nasty case in which two members of the ubiquitous Abbott family—George and Kitty—figured, was tried in Justice Taney's court before a jury yesterday. Kitty, a very handsome girl of 18, with a two-edged sword for a tongue, was on trial for using vile language toward a neighboring woman. The colored lawyer Benjamin appeared as Kitty's lawyer, and Deputy District Attorney Harrison acted as prosecutor. A large crowd of gossips was attracted to the courtroom, who enjoyed the libidinous developments immensely.

H. R. Moore retires from the proprietorship of the Nadeau September 1st, and Frank Maynes, for many years connected with the Parker House, Boston, becomes associated with H. W. Chase as proprietor. Joseph Schreder, Jr., will continue the management of the house. F. J. Field, a well-known and popular hotel man, has been engaged by Manager Schreder as chief clerk, and will assume his duties September 1st. The many friends and patrons of the Nadeau during Mr. Moore's connection with the house will regret his departure.
